Hi Laura,  
You told me liked editing. I have found the footage I want for the projected footage. I need a minute of video of just women. Can you edit one minute of footage from this video showing only females?

Will you be at the meeting tomorrow at 2pm? I can explain to you tomorrow.

Carrie Finklea

YES i can edit. I will be at the meeting though I may need to leave early. I have somewhere I want to be by 4:30. I am trying to figure out logistics. Can you give me specific scenes you really want to see. I assume you especially want the scenes of women working and woman looking dreamy and woman cheering but if there is something very specific you want to see let me know. I am going to have to ask the lab the best way to down load the footage.

I also sent a message to my editing professor but if this is what you want. Are there any images you would like as well, because I can also add things and change the color tones. If there are symbols or images you want me to splice in. Like women power or something neutral even. I can jazz it up or just do straight cuts. In other words rather than cut just a minute from this I could also add some kind of symbols representing the "new order."

I have cut a video using the footage from GETTY just because I wanted to test it out. It took me 30 minutes. It is processing on vimeo and I will send you a link. If we can get the footage off of youtube I can easily do it. Does anyone have a copy of Michael Moore's film "Sicko" the movie that the footage you sent me is in. It might be easier to get the footage off a DVD. I need to know though if I put it on a flash drive can you project it or do you need a DVD?

Ok let me work on getting the footage off of YouTube for you.  
Not sure if you can use a dvd or flash drive. I'll find out
