Lee I was a gifted & talented social studies student & could read at the level of a 12th grader in the 6th grade. I was trained to be a journalist in high school, college, & law school. I've forgotten more about history than most people ever know. I was an AP American history student. I don't know everything. But I understand more than your willing to accept.

I'm sick of you Lee slandering me as not being capable when you helped blacklisted me from the only industry I could ever be successful in.

Read my muckrack bio. I trained to be a freelance writer to. Law school required I write about legal stuff. Grad school I wrote about performing arts & papers on censorship. Which FYI what twitter did wouldn't be lawful if done by the government. What I said was not illegal speech. I know because it's what I wrote my thesis in grad school on. Obscenity & what constitutes offensive speech.

<https://muckrack.com/lauraanntull>

My area of legal expertise Lee was communications & 1st amendment. I worked for WALA.

<https://waladc.org/>

It's on my transcript from American University. It states I did an internship with WALA.

I just called a guy I went to law school with who In 2010 worked for the CIA. I recorded the voice mail

I want the feds to investigate you lovern & my father.

Really Lee. Did he know you are GOP?

I worked for al Snyder. Man who started the communications office in the white house. One of his clients was the space foundation. We did the media for the annual awards for inventions based on space tech

You are a discriminatory bully.

There are different kinds of intelligence Lee. I'm guessing that means you know the star trek people in the industry. Science without psychology leads to inhumanity.

Intelligence without emotional intelligence leads to abuse & psychotic destructive science.

The only area of science I liked was physics. Easy A in high school. But I know my limits Lee. You were so smart you decided I didn't have a future acting? Without knowing anything about my history or experiences. You know I was blacklisted and I didn't do anything to deserve it .

Knowing science Lee doesn't make you an expert in psychology or mental health.

Oh right I'm special needs? I'm stupid as far as you are concerned. You rented a car Lee to be on a set. I question your rationality on that one.

I thrived on sets Lee. I'm a better actor than you. I guarantee that. It takes more Lee than intellect to act. It takes understanding your own inner self. It takes understanding human behavior. Where you know science. I know social studies history & art. I get cut off from what I know. I wanted to work this entire time. I'm not Lee capable of doing science at the nasa level. Get a hint though. Most of the actors on star trek are more like me than you.

Again Lee I'm not going to get a job or make \$ unless I can be doing things that make me feel respected & intelligent. I don't take kindly to arrogant men who think science alone makes them special. I'm not attracted to arrogant intelligence.

I'm attracted to the Raoul Wallenbergs & Banskys & actors who try to make the world better through their art. People with the human touch. Not just brainiacs

For someone who claims they worked with hawkins your inability to even admit you may be wrong about anything you've said or done to me says volumes about your true intellectual level.

I just realized if you know hawkins. Do you know musk? Larry elison? My phone being hacked. All the tech issues. You?

Gilbreathe has worked with William Shatner

Though I have to. I was a regular on Boston Legal. Well they would use Me every few months.

I'm destroyed Because your science brain can't fathom how I could be successful at acting. Because acting requires a different kind of intellect Lee.

I'm not special needs.

Mt ex boyfriend was a biomedical engineer. I also dated an airforce navigator.

I can't find anything online Lee about you & hawkins?

Lee there are different kinds of disability. Stephen Hawkins was disabled but smarter than 98% of the planet at least in physics

I can't practice law. I am not good at stocks or selling crap. But I was good on sets & good at writing, when I care enough to focus & edit my work

You don't get Lee mental health means being mentally happy & whole. I can't function the way you do. I'm different. I thrived on sets. I'm an actor. That is how KY brain thinks. I create stories. I excelled at editing stories. There isn't a lot of \$ in documentaries & I'm more driven to create characters that don't exist than talk to living breathing people.

I was special Lee. But my gifts were in being able to project or hide emotions. I've been an actor my entire life. I've had many acting teachers say I'm an A actor. You are truly pathetic in your insecurities & jealousy. Despite being physically weak Lee I got cast on Bones as FBI in 2007 & I'm the only girl they recalled out of 50 people.

You do know you saying that is showing hatred for special disabled people. I fucking could kick your ass in cards Lee. You think because I have a vagina & ethics I'm special needs. I was probably reading books with bigger words in them before you could even read a novel. At 7 years old I tried to read a children's dictionary from cover to cover. Do you fucking know what Phi Beta Kappa is & mensa. My IQ is higher than 95% of the planet Lee. That is what mensa means. Sit down now Lee. Because you are just destroying yourself.

Just bury yourself Lee further.

FYI. I needed thyroid meds. But I had allergies. I'm allergic to pork Lee. Meat. Also I can't have sugar. In 2020 one thyroid company finally came out with thyroid medication that's both gluten free & generic. It may not work for me. But I finally may have an option. My medical condition isn't simple. I'm underweight & many thyroid meds cause weight loss. I'm having trouble finding a doctor I can trust who takes my insurance. I'm angry at Grey's Anatomy and its fan base for not realizing it's not about real doctors. Real doctors can be incompetent & misinformed & misogynist.

I've had doctors try to give me meds I'm allergic to because they didn't bother to read my records.

I'm not an idiot Lee. But you certainly are showing me your intelligence level.

Lee in 2008 before I was blacklisted I went to see doctors. The doctor put me on nutritional supplements for my brain. He told me I had celiac disease. I got my blood records from him in 2014. According to his records I had Hashimoto's. I don't know why he didn't tell me. So while you men were labeling me crazy using your expertise in what? Caring a gun in the military? Where are your doctor credentials Lee? I was trying to find out why I had brain fog. Why I felt anxious when I had no reason to be anxious. Why my digestion was screwed up. Why I was losing weight but eating like a horse. I dropped to 116.

Do you know putting a woman with hashimoto's into an institution & putting her on psych meds doesn't fix hashimoto's. Also I have a yeast allergy & pork allergy. I would have not gotten better Lee. I would have gotten worse. But then you men didn't want me healthy. I was more educated than the 3 of you. I was a better actor than the 3 of you. I was working more on sets than the 3 of you. In fact Lee I'd like to know. How much \$ did you make in 2007 2008 from sets. I'm betting I made more. Unless you were union and managing to work 2 to 3 days a week every week.

You just threatened me Lee. Take me to court now & the court will give me restitution. Not you.

For the record Lee my mother is a nurse. I never ever want to date doctors or work in the medical profession. I had no desire to play a character on Grey's anatomy and I typically don't watch medical dramas. Arne was the one obsessed with being cast on Grey's. I just was there for the pay checks.

You fucking can't speak for the entire world. You have 12 subscribers on YouTube. I have 300 and I wasn't trying to get followers there.

Your opinion as to whether people care is bull shit.

For all of you getting this if you don't care I hope you get sick. Fuck off. I don't need people who want me to hate being alive in my life. If I can't have a creative career I'm never going to honestly be happy or like life again.

Take me to court Lee. I dare you. Face me in court.

I just Had a friend tell me she wants me to meet her kids in Florida. But unless I make \$ acting and can be back on sets and be seen as an intelligent successful person and talented. I'm not fucking going anywhere.

I haven't worked since 2010 & unless I get justice for your insanity and Disney & rhimes I'm not going to give a crap about life.

Woody Schultz. I'm never going to be a conservative GOP republican. I'm not an accountant. I only came to Cali to be an actor. If i can't say I'm an actor I don't feel safe. I'm miserable.

I want my acting life back Lee. I'm never going to be dating or socializing. I'd rather know I can be on sets again

I need to be on thyroid meds Lee. Not mental health medicine. If you assembles hadn't played amateur psychologist with me I may not be as sick as I am now

FYI. You say no one would cast me. I studied with David Roundtree for many months. I have emails where he calls me an actor. He's read a script I wrote and gave me notes. He said he'd cast someone who looks like me as a lead because not every part requires a hot sexy put together person. He even Had me do scenes from a horror film he made where I played the lead in it.

You and Cassandra telling the world I'm crazy & a has been actor. Take me to court. I'd like to give the court all my evidence that you've slandered me & ABC Disney blacklisted me. And you said you intend to get shonda rhimes & sag aftra involved? That's what lovern & arne star did right? Ue their friends working at union & with rhimes to have me blacklisted. Used the cops to silence me. The police kept telling me it wasn't sag aftra. But if it was you or lovern or arne. Than it was the union.

Hi Laura,

I'm Sam the recently instated North American Editor for Demotix. Wais tells me that you are one of our best reporters for L.A. There are a couple of things that are of interest at the moment here at Demotix. Halloween pictures and images that surround the Proposition 19 debate. I don't know which side you agree with, but it will be great if you can provide images of the problems caused by prohibition of marijuana in California. Let me know if you are interested.
