Actually I wanted you to clarify because you call him a rapist then you call him a molester.

So which is it?

Did he rape you or was it just a finger?

Either way it's wrong what he did to you but clarify it please.

Clarification is important, and no I'm not belittling you, I wanted to know the truth.

Yet another death threat from you!

You are so abhorrently vile & I'm glad I don't live anywhere near you, you are a nasty person.

You messed up your own life back in 2008 as more people can see from all you've posted, once again you have posted all over the internet.

You need locking up in a psyche ward & the key thrown away
